DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: a spacing is missing for "31are" in line 7 of paragraph [0006] and in line 7 of paragraph [0039], "isformed" in line 2 of paragraph [0046], reference character "31" in line 7 of paragraph [006] and in line 3 of paragraph [0008] has been used to described both "lugs" and "ring shape base portion", "a" in line 13 of claim 1 should be written as:---an---.

Appropriate correction is required.

Claim Objections

2. Claim 3 is objected to because of the following informalities: the limitation "the recess is tapered from the radially end of the flange toward its circumferential center" should be written as:--- the recess is tapered from the circumferential end of the flange toward its circumferential center--- because Fig. 8 show recess 81 tapered (became progressively smaller toward an end) from one circumferential end toward the circumferential center of the flange. Appropriate correction is required.

Allowable Subject Matter

3. Claims 1, 2 and 5-7 are allowed.
4. Claims 3 and 4 would be allowable if claim 3 is rewritten or amended to overcome the objection set forth in this Office action.
5. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not show an insulator for an armature core of a rotating electrical machine as described in claim 1 wherein the tooth covering portions

Art Unit: 2834

being formed with an axially extending flange to form an abutment against which a coil winding is abuttingly engaged, said insulator being formed with a slot like recess contiguous to said axially extending flange to trap the wire of the coil winding end to prevent it along the generally channel shape portion in a radial direction from slipping.

Conclusion

6. This application is in condition for allowance except for the following formal matters:

The objections to the specification and the objections to claims 3 and 4.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
